Action Required to Open Your Account

In accordance with the USA PATRIOT Act, Federal law requires all financial institutions to obtain, verify, and record information that identifies each individual or entity opening an account. During our account opening process, we were unable to verify some of your information. While your account is currently open, it will be closed 60 days after the date of opening if we do not receive the necessary information to confirm your identity. To confirm what information is needed, please reference the letter that was mailed to you or call the number on the back of your debit card. **Action Required:** Please complete the **Health Savings Account Verification Form** and submit copies of the necessary documentation to validate your identity at www.hsabank.com/Idocuments or via askus@hsabank.com. Once your documentation is validated, this message will no longer appear in the message center. If you recently submitted documentation, processing time normally takes 1-2 weeks. If you would like to inquire on the status of your documentation validation, please call the number on the back of your debit card for further assistance.

- This message indicates that HSA Bank needs additional documentation to maintain your open account. Clicking View More provides additional information on why we require this and how to submit your documentation.
- You will also receive a letter in the mail with specific information on what is needed from you and how to send us the required documents.

Select a goal below to get started.

What are your healthcare savings goals? *

- Save enough to cover my current year out-of-pocket medical costs
- Build savings for future out-of-pocket medical costs
- Save for current and future out-of-pocket medical costs

Based on the goal you select, fill in the required fields on the next page. Some of the data shows automatically (such as your current HSA balance), and other fields prepopulate with suggested information.

- When you have entered the information that best reflects your savings goal, click Next.

Tools & Support / Healthcare Savings Goal

Saving for Current and Future Expenses (Step 2 of 3) * Required

Help us understand what you need to save. First, we will look at your current savings:

Your current HSA balance is \$871.93

Do you have other savings to include toward your target healthcare savings?

Next, we will look at your annual expenses:

What is your annual health plan deductible?*

Do you have other anticipated medical costs this year?*

Now that we know your current savings, tell us about your future savings goals:

What is your target savings?*

What year do you plan to start using the money you've saved?*

Finally, tell us your thoughts on your investing your savings with your HSA:

Are you planning on investing a portion of your HSA?* Yes No

What is your anticipated annual rate of return?* %

Cancel Previous Next

- In the final step, review your goals. You can click the “How was my goal calculated?” link for more information or Previous if you would like to go back and change any information.
- When you are ready to finalize your goal, click Save My Goal.

When reviewing your savings goals, please keep in mind that your actual annual contribution amount should not exceed the applicable IRS maximum limits for your health savings account. Saving over multiple years can help you reach your long-term goals.

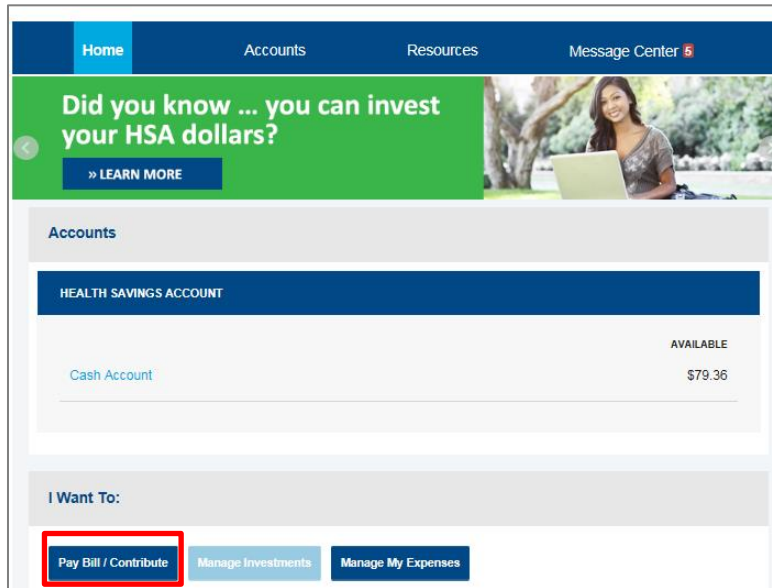

Please note: The calculated goal is intended to be used as a guide and does not constitute financial advice. Contact your financial or tax adviser for advice specific to your situation.

- Once your goal is saved, you can edit it at any time by clicking Edit Goal.
- Clicking the Contribute button makes it easy to contribute money from your external bank account to your HSA.
 - **In order to avoid being taxed on excess HSA contributions, please calculate your annual HSA contribution amount to ensure that it does not exceed the IRS' annual contribution limits. If you are 55 years or older, and not enrolled in Medicare, you are eligible to contribute an additional \$1,000 above the IRS limits.**
